## Contents

**Foreword** 6

**The History of the Astronomy Collection and Exhibition** 9

**A Brief History of Astronomy** 17

- **Introduction** 17
- **The Oldest Astronomical Observations** 18
- **Classical Astronomy** 20
- **Astronomy in the Middle Ages** 22
- **The Heliocentric System** 24
- **Celestial Mechanics** 27
- **Astrophysics** 29
- **Researching the Star Systems** 31

**A Brief History of Astronomical Instruments** 37

- **Gnomonic Instruments (Sundials)** 37
- **Instruments for Angle Measurements and Navigation** 64
- **Instruments for Sky Measurements (Astrometric Instruments)** 93
- **Telescopes and Observation Technology** 113
- **Drawing and Calculation Aids** 132
- **Demonstration Aids** 152

**Personalities in Czech and Global Astronomy** 182

**Notes** 194

**Literature** 201

**Glosary** 204

**Index of Names** 210

**Listing of Exhibited Items** 217
